

## Council commends management on web ranking

The Governing Council of the University of Ilorin under the Chairmanship of Alh. Tukur Mani has lauded the performance of the University in the recent rankings of the “For International Colleges and Universities” (4ICU.org) and Ranking Web of World Universities (Webometric).

According to a statement signed by the Registrar and Secretary to Council, Mrs. Olufolake O. Oyeyemi, the Council “noted with pleasure and satisfaction the latest results of Universities worldwide” by the two bodies and commended the Vice-Chancellor and the Administration on the achievement.

While 4ICU.org in its July 2009 edition ranked the University of Ilorin best in Nigeria, the webometric ranking rates the University second in the country, as summarised in the tables below:
