OUR VISION

To be an international centre of excellence in learning, research, probity and service to humanity

OUR MISSION

To provide a world class environment for learning, research and community service

THE NATIONAL ANTHEM

Arise, O Compatriots,
Nigeria's call obey,
To serve our Fatherland,
With love and strength and faith,
The labour of our heroes past
Shall never be in vain,
To serve with heart and might,
One nation bound in freedom, peace and unity.

Oh God of creation,
Direct our noble cause,
Guide our leaders right,
Help our youths the truth to know,
In love and honesty to grow,
And living just and true,
Great lofty heights attain,
To build a nation where peace and justice shall reign.

THE NATIONAL PLEDGE

I pledge to Nigeria my country,
To be faithful, loyal and honest,
To serve Nigeria with all my strength,
To defend her unity,
And uphold her honour and glory,
So help me God.

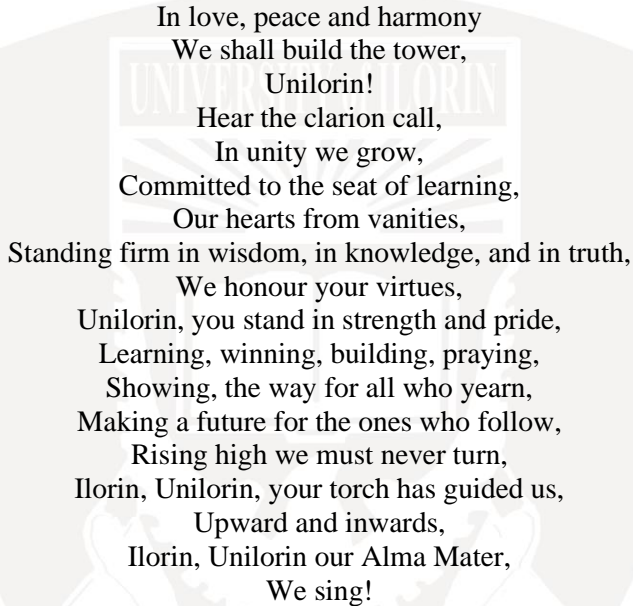

UNILORIN ANTHEM

(The Alma Mater)

Music by Lavina L. Odejimi

Words by Lavina L. Odejimi & Abraham T.J. Adavi

In love, peace and harmony
We shall build the tower,
Unilorin!
Hear the clarion call,
In unity we grow,
Committed to the seat of learning,
Our hearts from vanities,
Standing firm in wisdom, in knowledge, and in truth,
We honour your virtues,
Unilorin, you stand in strength and pride,
Learning, winning, building, praying,
Showing, the way for all who yearn,
Making a future for the ones who follow,
Rising high we must never turn,
Ilorin, Unilorin, your torch has guided us,
Upward and inwards,
Ilorin, Unilorin our Alma Mater,
We sing!

PREAMBLE

The University of Ilorin is located in the ancient city of Ilorin, about 300 kilometres from Lagos and 500 kilometres from Abuja, the Federal Capital City. Ilorin, the Capital of Kwara State, is strategically located at the geographical and cultural confluence of the North and South and can be described as a gateway town.

The University of Ilorin is one of the institutions of higher learning established by a decree of the Federal Military Government in August 1975. This step was taken to provide more opportunities for Nigerians aspiring to acquire University education and to generate relevant high-level manpower for its developing economy.

Initially, as an affiliated College of the University of Ibadan, Dr. T.N. Tamuno, Professor and Head of History Department at the University of Ibadan, was appointed the first Principal of the University College, Ilorin, in September 1975. Shortly after Professor Tamuno's assignment as Principal of the College, he was appointed the Vice-Chancellor of the University of Ibadan. It therefore, became necessary to appoint another Principal in the person of Dr. O.O. Akinkugbe, Professor of Medicine and former Dean of the then Faculty of Medicine, University of Ibadan, in December, 1975.

With the assistance of the then Military Governor of Kwara State, late Colonel Ibrahim Taiwo, the new Principal, Professor O.O. Akinkugbe, was, by March 1976, in residence at Ilorin, in rented quarters, which also included a three-bedroom Guest Chalet at 5, Forest Road, G.R.A., where the administrative work of the University was carried out. Prof. Akinkugbe started with four members of staff comprising two Administrative Officers, one driver and one Clerk/Typist. Soon after, staff recruitment began in earnest, and by July 1976, a sizeable number of academic, administrative and technical staff had been employed for the take-off. Immediately, the administration moved to a slightly more spacious location at Sabo-Oke. The support enjoyed by the fledging institution continued under the third Military Governor of the State, Brigadier George Innih, who gave a portion of the Kwara State College of Technology to the University. This served as the Mini Campus for 36 years but presently houses the University of Ilorin Secondary School and the Institute of Education.

ACADEMIC AND PHYSICAL DEVELOPMENT

Following an entrance examination, 200 foundation students were admitted into residence on Saturday, October 23, 1976, and academic activities commenced on Monday, October 25, 1976, after the Principal's maiden address at about 10.00 a.m. in the Africa Hall. The University College had three foundation Faculties namely: Arts, Science and Education headed by Professors O. Awobuluyi, M.O. Olofinboba and J.O.O. Abiri as Deans respectively. The foundation Principal Officers were: the Registrar, Mr. Olu Daramola, the University Librarian, Mr. B.A. Oni-Orisan, the Bursar, Mr. I.A. Oyawoye and the Director of Works, Mr. R.A. Imohiosen. Under their administrative and academic leadership, the institution marched ahead towards the development of its science-oriented programmes.

In October 1977, the University College Ilorin attained a full autonomous status of a university and has since then been developing by leaps and bounds. The student population of 200 in 1976 had increased to about 54,8494 in 2017. Up till January 1982, the University carried out its academic programmes, involving the Faculties of Arts, Science, Education, Engineering and Technology, Business and Social Sciences and the Pre-Clinical aspect of the Health Sciences on the Mini Campus. The completion of the faculty blocks for Natural Sciences and Engineering as well as 8 blocks of students' hostels by December 1981, made it possible for the actual movement of over 1,000 science-oriented students to the Main Campus to pursue their various academic programmes on 2nd January, 1982.

The main campus currently houses the Faculties of Agriculture, Arts, Communication and Information Sciences, Education, Engineering and Technology, Environment Sciences, Law, Life Sciences, Management Sciences, Pharmaceutical Sciences, Physical Sciences, Social Sciences, and Veterinary Medicine as well as the Postgraduate School, while the College of Medicine, which comprises the Faculties of Basic Medical Sciences and Clinical Sciences, is located in the premises of the University of Ilorin Teaching Hospital pending the completion of the its permanent site which is about five kilometres to the main campus.

Within the main campus are also the former Central Administration building (formerly transferred to the Faculty of Arts but which now houses the General Studies Division, the offices of the University Resources Development Management Board, the Library and Publication

Unit, the Department of Adult and Primary Education, among others), Directorate of Works and Maintenance, the Physical Planning Unit, Conference Centre, Student Canteens and Unilorin “Bukateria” Centre. Other buildings are a block of workshops for the Department of Agricultural Engineering, completed in 1988; a big Library Complex, 1991; a Students’ Centre, 1993; five blocks of offices and classroom for the Faculty of Education, 1993 which in 2013 was transferred to both the faculties of Management and Environment Sciences after the completion of a new block of complex for the Faculty of Education and 15 lecture theatres (with the seating capacities of between 350 and 600 students built for each of the faculties), blocks of offices and laboratories for Sugar Research Institute, 80-students capacity language laboratory, block of offices for departments of Economics, Political Science, Sociology, Social Work, Psychology and Geography and Environment Management, a Prometric Centre for 500-position capacity, Four storey Office and laboratories for departments of Mass Communication and Computer Science, a Phonetics laboratory, Central Research Laboratory Complex, a new Central Administration (seven storey building), and 2000 seater capacity state-of-the-art Auditorium.

Other projects include the building of the Postgraduate School, a 4-storey block that houses the Centre for Peace and Strategic Studies and the Centre for International Education, a block of office for the Centre for Ilorin Studies, for Research Development and In-House Training that also houses the Office of the Deputy Vice Chancellor (Research and Innovation) a block of office for the Technical and Entrepreneurial Centre, new offices and laboratories complex for Faculty of Life Sciences, a 2000-seater multi-purpose hall complex, a 2-storey block of offices for the Department of Material and Metallurgical Engineering, a block of offices for Ilorin Business School, a 4-storey office complex for the Faculty of Arts, several University Public-Private Partnership (PPP) Students’ Hostel Development Projects, Information Communication Technology Centre also referred to as Network Operating Centre (NOC), 1-storey block of offices for the Department of Optometry and Vision Science, 1-storey block of offices for the Faculty of Pharmaceutical Sciences, construction and rehabilitation of the existing blocks of offices and classrooms in the former Unilorin Secondary for use by the Faculty of Veterinary Medicine and Veterinary clinic at the former MBA school in Sabo Oke, Ilorin, construction of new Engineering Workshop and Research Centre, six different Bank buildings, an E-learning Centre, six 250-seater capacity Computer-based Testing (CBT) halls, Geology and

Mineral Sciences Complex, Performing Arts Theatre Complex, Faculty of Law block of classrooms, the University Store building, Home Economics and Food Science block, Cooperative building, Academic Staff Union Secretariat, Laboratories and offices for the Departments of Chemical Engineering and Statistics, New Senate, Police post at the University gate, Fire Prevention Unit and workshops for the Directorate of Works and Maintenance.

The College of Health Sciences also experienced some tremendous physical development since its relocation from the Mini campus and the former General hospital as evident by the construction of administrative blocks, a block of offices for the lecturers, a block of 4 lecture halls, 8 blocks of student hostel, a laboratory complex, a library block and an ultra-modern, fully-equipped medical simulation centre in the University of Ilorin Teaching Hospital premises. The year 2017 witnessed on-going construction and the completion of some blocks of classrooms/lecture halls, students' hostel, staff offices, College and Faculties offices in the proposed permanent site.

The University also constructed a Central Power Station unit to serve as stand-by power supply for the entire main campus, a radio station, a sport complex with a sports pavilion, comprising a standard indoor sports hall, a fitness centre, a tartan track, 4 lawn tennis courts, 2 basketball courts and 2 volleyball courts. Extensive construction and rehabilitation works were carried out on many roads on the campus (e.g. the link road between the main campus and the College of Health Sciences, construction of walkways, drainages and sand crete block fence at Bolorunduro and Ile-Apa boundary of the University, construction of students' sit-outs across Faculties, gate and gate house at Sentu boundary of the University 200m² and 500m² elevated water tanks and three 1000m concrete ground water tanks, water distribution network and the overhead electricity lines from Ganno to the main campus, parking lots across Faculties and Departments, public toilets at the University zoo, as well as, construction and rehabilitation of street lights. Over the years, several bore-holes were also sunk in addition to the building of a Booster Water Station to improve water supply. Special mention must be made of the Unilorin water dam which has also been completed and the dam site that now serves as a recreation venue.

GROWTH OF FACULTIES

As at 2019, there are fifteen Faculties in the University. These are

Agriculture, Arts, Communication and Information Sciences, Education, Engineering and Technology, Environment Sciences, Law, Life Sciences, Management Sciences, Pharmaceutical Sciences, Physical Sciences, Social Sciences, and Veterinary Medicine. Altogether there are 106 academic Departments in the fifteen Faculties. The duration of undergraduate degree programmes ranges from three to six years, depending on entry qualifications, and discipline. The University started with the traditional “Three-Term System,” but later changed to the "Two Semester System" called Harmattan and Rain Semesters with effect from 1979/80 session. Each semester comprises one-half of an academic year as determined by Senate. Also, instruction in the various Faculties, with the exception of the medical programme in the Faculty of the Clinic Sciences of the College of Health Sciences, is by the course system and courses are quantified into credits.

The University has teaching support units which include the Computer Services and Information Technology (COMSIT), Network Operating Centre (NOC), Central Workshop, Biological Garden, Community Based Experience and Services (COBES), Medical Educational Resources Unit (MERU), World Health Organisation (WHO) Collaborating Centre, General Studies Unit, Teaching and Research Farm, Centre for International Education, Centre for Research, Development and In-house Training, Technical and Entrepreneurial Centre, Central Research Laboratory, Centre for Peace and Strategic Studies, Students’ Industrial Work Experience Scheme (SIWES) Unit, Students’ Affairs Unit, Academic Planning Unit, Directorate of Corporate Affairs, Unilorin Sport Council, Legal Service Unit, Unilorin SERVICOM, University Health Services (Human and Environmental Health Units), Physical Planning Unit, Directorate of Work, Advancement Office, Clinical Skill Laboratory, National Centre for Hydro-power Research and Development, Unilorin Medical Screening Centre, Unilorin Stem Cell Research Centre, Centre for Ilorin Studies, Ilorin Archives and Documentation Centre (UADC), Linguistics Immersion Centre, and Unilorin Counselling and Human Development Centre.

In the University, there are also the Public Service Units, which are the University School (Primary and Secondary), Centre for Affiliated Institutions, School of Preliminary Studies, Unilorin Joint Universities Preliminary Examinations Board (JUPEB), Unilorin Consultancy Services Centre, Unilorin Bookshop, Unilorin Printing Press, Unilorin Guest Houses and Unilorin Researchers’ Lodge, Unilorin Petrol Station,

Although an academic Unit, the Library is actively involved in rendering service to the University and the public. In addition, there is a Sugar Research Institute which is mainly a research unit situated along Ilorin-Ajase-Ipo road.

POSTGRADUATE SCHOOL

A Postgraduate School was inaugurated on 8th November, 1983. Prior to the time, matters relating to Postgraduate Programmes were handled by the Board of Postgraduate Studies. Postgraduate studies initially commenced in the Faculty of Science when in 1977, two candidates were enrolled for the Masters of Science degree in the Department of Biological Sciences. Since then, higher degree programmes including doctoral programmes have commenced in other faculties; and the Postgraduate Diploma in Education (PGDE), Diploma in Medical Radiologic Diagnosis (DMRD), Postgraduate Diploma in Computer Science (PGDCS), Postgraduate Diploma in Statistics (PGDS), Postgraduate Diploma in Strategic Management (PGDSM) have also been introduced.

The University Postgraduate programmes have progressed well in enrolment and graduation since its inspection in October, 1978. For instance, from 2 Masters Degree graduating students in 1978, the University graduated 1074 Masters Degree students in 2017 and from only 2 Ph.D. graduating students in 1983, the University also graduated 120 Ph.D. students in 2017. Given the above, it imperative to note that the University has continued to establish and maintain high standard of scholarship in its various academic disciplines through teaching, research and postgraduate programmes.

STUDENTS' ACCOMMODATION AND WELFARE

All the students were initially residential but as the students' population increased over the years, the existing halls of residence became overstretched. The University, therefore, had to embark on the off-campus system with effect from the 1981/82 session. Available data indicated that about 80 per cent of the total students' population of 43,915

live off-campus. By implication only about 11,000 students are accommodated in both the University students' hostels and those provided by private developers through the Public-Private Partnership Initiative. The Halls of Residence are administered through the Students' Welfare Board and a Committee of Hall Masters/Mistresses.

Hitherto, the University used to have two Central Cafeterias, one each at the Mini and Main Campuses but following the Federal Government directive on federally-subsidised students' feeding, effective from October, 1984, students' catering services were provided by private caterers appointed by the students, to run the eateries. The latter catering system became operational in November, 1984. The Students' Catering Committee provides the necessary guidelines for its operation. It also monitors the quality and quantity of food, general environmental sanitation, and water supply to the eateries. However, by mid-1990, the students' catering services ceased to exist and instead were replaced by food canteens referred to as "Bukaterias".

To further enhance, students' welfare at the beginning of every session, the Student Affairs Unit organised an orientation programme for new students. This largely ensured peace and tranquillity on the campus. It is the University policy that for any students' clubs and associations to exist in the University, it is mandatory for such students' clubs and associations to register with the Student Affairs Unit to ensure proper monitoring of their activities. In an attempt to bridge the gap between the University Administration and students and to cultivate leadership ability in the students, membership of some committees was extended to the students. Such committees included Students' Welfare, Sports, Students' Disciplinary and Ceremonials.

STAFF ACCOMMODATION

Whereas initially, the University provided accommodation for its senior members of staff only, it extended this facility to the junior staff upon the completion of the Federal Government Low-Cost Housing Units at the Main Campus. For the senior staff, there are 141 housing Units on the Main Campus, made up of 98 bungalows, 7 maisonettes and 9 blocks of 4 flats each. This is in addition to 56 units on the University Government Reserved Area (GRA) Quarters. There are also the University Guest Houses to cater for the immediate accommodation of new staff. A cost-saving housing policy of Rent Grant/Furniture Loan was introduced in 1984 to replace the former policy of providing part-furnished

accommodation to staff on HATTIS 9 and above. This however, has ceased as a result of the consolidated salary structure introduced by the Federal Government in 2007.

INAUGURAL LECTURES (UPDATE)

An Inaugural Lecture is an Academic Tradition inherited from some of the ancient renowned Universities of the world. The objective of an Inaugural Lecture is to initiate, among others things, a Professor into a Professorial chair and afford him the opportunity of telling the world in lucid, digestible and scholarly language how he has arrived as a Professor.

In pursuance of this objective, the University of Ilorin commenced, in 1979 its University Lectures consisting of a series of 2 to 3 lectures per session. However, in March 1982, an Ad-hoc Committee was set up to formulate guidelines on upgrading University Lectures to Inaugural Lectures. A series of 5 lectures per session to be given by persons appointed to Professorial chairs in the University was recommended. So far 110 of such lectures have been delivered in the following order:

UNIVERSITY SERVICES

UNIVERSITY LIBRARY

General

The Library is primarily responsible for selecting, acquiring and organising books, periodicals, documents, newspapers, maps and other materials that are required for the teaching and research activities of the University. The responsibility for book selection is jointly shared with members of the teaching staff. Readers wishing to suggest books and periodicals for addition to the collections may do so by completing appropriate slips which can be obtained on request from the Acquisitions Librarian and the Loan's Desk.

Presently, the Library's book collections numbered about 100,000 in volumes after extensive weeding exercises for relevance and currency. It also has an estimated number of periodicals of about 330 titles and about 6000 theses. A total of 4662 periodicals including journals, Magazines and Newspapers. The Library presently subscribes to a maximum of 12 newspaper titles daily and there are 11,166 pieces of government publications, 2,707 rolls of microfilms, 18,895 sheets of microfiches, 75 gramophone records, 300 audio cassettes, 57 video cassettes and 799 slides. The Library has resources including books

and journals in both hard and electronics copy in all the disciplines and programs offered in the University. The Library provides a wide range of services including interlibrary loans and photocopying. Machines are available for consulting microfilm and audio-visual materials. Detailed instruction in library use is provided to undergraduates as part of the General Studies Programme. Advanced bibliographic courses are available on request by lecturers for final year and postgraduate students preparing for their long essays and dissertations. The Library also provides carrel services, which affords individual users the opportunity for a serene, private and conducive apartment for studying within the Library. Interested users are expected to request for this service at the circulation unit of the Library. All enquiries regarding reader instruction, either on individual basis, or in groups are made to the Readers' Services Librarian. This and other Library service are being provided by a wide ranging cadres of work force numbering 109 staff members including 24 professionals, 64 para professionals, 21 non-professionals.

The Electronic Library, which started off over a decade ago in a facility donated to the University which is a far distance from the main Library has been recently relocated back to the new extension of the main Library. The newly completed extension of the Library is a one story building whose first floor has been solely dedicated as the new E-Library with complete networking which prepares it for the development of a virtual environment for service provision. Also, instructive is that the Library Extension building came along with it furniture namely reading tables and chairs, as well as book shelves. At the beginning of its computerized process the Library adopted TINLIB and Alice for window software which has since been changed to KOHA. There are presently 220 desktop computers which are fully networked. There are 18 computers at the On-line Public Access Catalogue Section (OPAC).

Currently, there are 17 subscribed and non-subscribed databases in all. Prominent among which include *EBSCOHOST*, *SCIENCEDIRECT*, *EMERALD*, *PROQUEST*, *LAWSCOPE* AND *HEINOLINE*. The unsubscribed databases include *Agora*, *HINARI*, *OARE*, *ARDI*, *GOALI*, *JSTOR*, among others; some of which are general in scope while others are discipline-specific. They are used for carrying out searches in different fields for both staff and students.

The Library also manages the Universities institutional repository (IR), using *DSPACE* software which represent the reservoir of the intellectual productivity of the University. In the IR all publications and other research output of the senior members of the University particularly those of the Professorial cadres are uploaded as an important requirement for promotion. Information on the contents of the University Library, its arrangement and the services it provides, is found in a pamphlet, 'Guide to the University Library' obtainable at the main Library.

UNILORIN SECONDARY SCHOOL

Established in October 1982, the Unilorin Secondary School (U.S.S.) is one of the best private secondary schools in Kwara State with a student enrolment of 1,074. There are 59 all of whom are graduates and 21 non-teaching staff. With many ultramodern classrooms, highly dedicated teachers, two well-equipped Science Laboratories, a Computer Laboratory, an Home Economics Laboratory and an up-to-date Introductory Technology Laboratory, it stands out as one of the best equipped schools providing

qualitative secondary education in the State. The teachers are highly motivated and dedicated, while it is blessed with a Parents Teacher Association (P.T.A.) that supports the school variously to maintain its enviable standard in scoring 100% pass in the SSCE/NECO Examinations every year since 1985.

This is an institution that caters for the children of University staff as well as children from the locality where academic excellence is extolled. It adopts the concept of 'total' as its philosophy in moral training. The academic performance of the U.S.S. students is the envy of similar institutions in the community. The financial support given by the University, which has put in place a dynamic and efficient Board of Governors, and the commitment and complementary support of the parents are sources of the strength and success of the school. The U.S.S is a model Secondary School of which the University is justifiably proud.

In sports and related co-curricular activities, Unilorin Secondary School is marching on unrivalled. Many products of the school are now in such professions as Medicine, Law, Accounting, Engineering, Teaching, etc.

UNIVERSITY SCHOOL

University School (at inception known as University Staff School) was established on 19th September 1977.

It was established as a Nursery/Primary School taking pupils from (3½ years), three and half years of age to 11 years of age.

The then University Staff School was established a year after the commencement of University College, Ilorin. It was established to provide good and sound primary education for the children of the staff and non-staff alike.

The school commenced on a temporary site at Sabo-Oke with a population of hundred and seventeen (117) pupils. But presently, we have a population of three hundred and thirty-eight (338) pupils.

Comprising (192) of University Staff children and 146 non-staff children at Lower Middle and Upper Basic Classes.

The Upper Basic Class, that is basic 7-9 was accredited in February, 2014 by the National Examination Council (NECO) following the thorough accreditation inspection by the Kwara State Ministry of Education and Human Capital Development in June, 2013. Consequently, the school is, qualified and has been writing both state JSCE and NECO examinations since 2013.

The curriculum comprises the Basic School subjects: Mathematics, English Studies, National Values, Religious Knowledge, French, Business Studies, Cultural and Creative Arts, Yoruba and Arabic Studies. School opens at 8:00 a.m and closes at 1.00 p.m for Reception section and Basic 1 – 6 and 2:00 p.m for Basic 7 – 9. An optional lesson runs between 1:30 p.m – 3:00 p.m for the Primary section and 2:00 p.m – 3:00 p.m for the Upper Basic from Monday to Thursdays.

The performance of our pupils in NECO examinations between 2011 – 2015 had been heartwarming. This feat is largely attributed to the teachers who were hard working, dedicated and committed to their duties.

The school's academic calendar for 2017/2018 session has three terms of 14 weeks (1st term), 12 weeks for the 2nd term and 14 weeks for the third term that ends on 27th July, 2018.

POST OFFICE

A Postal Agency with relevant trained staff started operating on the Mini Campus of the University in May, 1978. An ultra-modem but compact Post Office, built on the Main Campus of the University by the Federal Ministry of Communications commenced operation on 12th March, 1985. This has now been moved to a more accessible location in the Academic area of the University. All postal services are provided to members of staff and students of the University as well as visitors and the University community.

TEACHING AND RESEARCH FARM

The Teaching and research Farm was established more than three decades ago with the primary objective of acting as the field laboratory for the students, and staff field researches as well as application of research findings to food and raw materials production.

The two field-oriented Departments in the Faculty carry out research in the areas of arable crops, tubers, vegetables, fruits, etc. Research in the area of livestock was limited to the Department of Animal Production where animals such as ruminants, monogastrics and poultry are used.

Students go through the mandatory and comprehensive one-year Farm Practical Training Program. The farm also rendered technical services to interested farmers in and around the University, provide gainful employment for both skilled and unskilled workers. Farm produce are also made available from time to time to the University community. These include; fresh table eggs, fresh lean pork, culled layers, beef, cheese, rams, improved seeds and seedlings (e.g. oil palm seedlings). Apart from the teak, jatropha and the moringa plantations, another 147ha of oil palm plantation has been established while an area of land has also been set aside for expansion of the cashew plantation.

THE BIOLOGICAL GARDEN

The Biological Garden was established in 1976 as part of the Department of Biological Sciences. Between 1976 and 1984, the Garden operated essentially on the Mini Campus on a small plot of land containing a few animals and plants. This satisfied, to a large extent, the teaching needs of the Department and indeed of some colleges and schools in and around Kwara State.

The garden moved to its present location at the University Main Gate in December, 1984. The Biological Garden was officially declared open to the general public on Monday October 21st, 1985 by the then Vice-Chancellor of the University - Prof. S. A. Toye -who himself as a Zoologist and lover of nature gave the Garden much interest and support.

The Biological Garden was established to serve the function of teaching and research at undergraduate and postgraduate levels as well as service advanced research being carried out within and outside the University particularly in the field of animal behaviour/habits and plant ecology. In addition to its fundamental objective of teaching and research, the Garden is being developed to cater for educational, cultural and recreational interests of staff, students and community. The garden is usually open to the public as from 6am upon payment of the prescribed fees.

With a total of 48 animals of different species and various kinds of plants and flowers, the Department considered it necessary to allow public viewing of the Garden on payment of a nominal fee especially as recreational amenities of this kind are presently inadequately provided in Kwara State.

BANKING FACILITIES

Various banking services are provided by the following banks on the Main Campus of the University:

- Finbank Nigeria Plc
- First Bank of Nigeria Plc
- Guaranty Trust Bank Plc
- Skye Bank Plc
- Unilorin Microfinance Bank Plc
- United Bank for Africa Plc
- Zenith Bank Plc

UNILORIN DAM

The construction of the main dam was started by the Petroleum Trust Fund in 1994. Although work stopped in July 1999, the Federal Government in 2004 released fund for its completion. The dam has a capacity of 1.8 million cubic reservoir while the water treatment plant has an installed capacity of 100 cubic meters per hour. The complex was commissioned in May, 2007 by the then visitor to the University, President Olusegun Obasanjo. With the dam and treatment plant in place, the University has been enjoying stable water supply.

THE UNILORIN SUGAR RESEARCH INSTITUTE

The Unilorin Sugar Research Institute was established by the Council of the University of Ilorin in January, 1980. It is the only Institute of its kind in Nigeria, and indeed in the West African sub-region. Its sole mandate is to conduct research on sugarcane production and processing. The idea for the establishment of the Institute emanated from the deliberations of a workshop organized by the Faculty of Science of the University of Ilorin in 1978 on “Scientific Research and Nigerian Industries”. At the end of the workshop, which drew participants from other Universities, the Industrial Training Fund, Federal and State Ministries, Industrial establishment and private organizations, it was resolved that the Faculty should explore the possibility of establishing a Sugar Research Institute. The first set of academic staff in the Institute assumed duty in August, 1980.

The broad objectives for which the Institute was established are:

- i. Conducting research into problems associated with sugarcane cultivation, processing and utilization, including utilization of by-products;
- ii. Training of undergraduate, postgraduate students and sugar factory/estate workers in biology/agriculture, processing and utilization of sugarcane and its by-products.
- iii. Rendering of consultancy services on sugarcane cultivation, processing and utilization.

The research activities of the Institute have been mainly in the area of sugarcane agronomy with specific emphasis on the development of effective field management strategies for high yields of sugarcane.

The short-term research activities have yielded some useful results in the area of weed management, disease control and information on the suitability of different imported sugarcane varieties for commercial cultivation in the sugarcane estates.

The long-term research activities of the Institute centre on the development of new and improved sugarcane varieties with wide

adaptation to the local conditions, high cane yields and resistance to the common pests and diseases of the crop. This effort had commenced since the 1983 growing season and the progenies obtained from that year's hybridization are currently at an advanced stage of evaluation. This modest effort has resulted in the release of first two indigenous sugarcane varieties developed by the Institute (ILS-001 and ILS-002) with high yield potential across the sugarcane growing ecologies of Nigeria.

The institute has also been involved in externally funded collaborative research activities with National bodies such as Agricultural Research Council of Nigeria (ARCN) and National Sugar Development Council (NSDC) under which germplasm enhancement, characterization and utilization as well as Biofuel (ethanol) research activities were undertaken. Four (4) of the progenies emanating from these activities are currently being multiplied for further evaluation prior to their being recommended for release by the National Variety Registration and Release Committee.

As part of its continued collaboration with National bodies, the Institute along with two other Institutes in Nigeria and Cote d'ivoire, under the aegis of West Africa Sugar Development Project, evaluated 40 improved sugarcane varieties in different agro-ecologies of the two countries. The projects was sponsored by the Common Funds for Commodities (CFC) with the supervision of the International Sugar Organization (ISO). The best five varieties identified in two rainforest ecologies (Ikenne ,Ogun State and Agenebode, Edo State, Nigeria) are currently being multiplied for uptake by the emerging sugar industries and sugarcane out-growers associations.

Furthermore, the Institute is also involved in other collaborative research activities on varietal evaluation, advancement and germplasm enhancement. These projects are funded by the NSDC, Abuja. With the revitalization of the Research Associates, it is expected that the scope of research activities in the Institute will be expanded.

UNILORIN CONSULTANCY SERVICES AND REVENUE YIELDING PROJECTS

HUMAN RESOURCES MANAGEMENT BOARD

As part of its desire to generate revenue to supplement the lean and declining government subventions, Universities were encouraged to try some measures of revenue yielding ventures. As a follow-up, the University, in November 1982, set up the Governing Board of Consultancy Services and Revenue Yielding Projects under the Chairmanship of the Vice-Chancellor.

The Governing Board held its inaugural meeting on 8th November, 1982. It is this body that formulates policies on consultancy services and revenue yielding projects. The Governing Board, through its Chairman, in its bid to fulfil its aspirations, formed Management Boards for the various projects, with the sole aim of generating revenue by charging for services rendered. Most of these projects had hitherto operated as mere service-oriented ventures.

The projects were later constituted into a limited liability company (The Unilorin Holdings Ltd, UHL). The UHL is presently centralised with each project having its own independent committee which reports to the Governing Council through the Human Resources Management Board and the Council Monitoring Committee on Revenue Yielding Units/Outfits (CMOCRYUO). The Management Committees are for these Units:

- (1) Unilorin Consultancy Services Unit (UCSU)
- (2) Unilorin Property Management Unit (UPMU)
- (3) Unilorin Guest Houses (UGH)
- (4) Unilorin Natural Resources Management Unit (UNRMU)
- (5) Unilorin Press (UP)
- (6) Unilorin Computer Services Centre (UCSC)
- (7) Unilorin Academic Ventures (UAV)
- (8) Unilorin Petrol Station (UPS)

The Human Resources Management Board comprises:

- (i) Vice-Chancellor - Chairman

- (ii) Director-General - Vice-Chairman
- (iii) An External Member of the University Governing Council
- (iv) Directors/Managers of Units
- (v) One Representative of Alumni Association
- (vi) A successful Businessman from outside the University
- (vii) A Legal Practitioner from within the University
- (viii) Registrar
- (ix) Bursar
- (x) Director of Works
- (xi) Secretary – Registrar’s nominee

UNILORIN BOOKSHOP

Following the disengagement from the University Bookshop (Nig.) Ltd., which had hitherto, under a special relationship been running a branch of its establishment on the University Mini Campus, the Unilorin Bookshop was established in July, 1982. The objective was to provide a profit yielding enterprise, without sacrificing its efficiency in serving the academic needs of the University Community. The main office of Unilorin Bookshop is located on the Mini Campus.

The Bookshop is presently on lease to a private organisation. The Unilorin Property Management Board and the Vice-Chancellor's Representative on the Management Board of the Bookshop oversee the running and operation of the Bookshop on behalf of the University.

UNILORIN GUEST HOUSES

The Unilorin Guest House is made up of fourteen chalets. The available accommodation includes double- room chalets with air conditioners at attractive rates.

(e) **Cumulative Grade Point Average (CGPA)**

Where applicable, a Student's Cumulative Grade Point Average (CGPA) is the up-to-date grade point based on all previous results. Clarification

Withdrawal here means withdrawal from a Programme rather than from a Faculty (except for fresh students who shall be advised to withdraw from the University) in accordance with the NUC directive on Minimum Academic Standards. This means that a student who is advised to withdraw from a programme may be absorbed into another programme even within the same Faculty/Department.

27. Maximum Time Permitted for a Degree

A maximum period of 5, 6, 7 or 8 years (as the case may be) is allowed for a 3-, 4-, 5- or 6-year’s degree programme respectively for the award of a classified degree or unclassified degree (as the case may be). In the Faculties of Clinical Sciences, Life Sciences (OD. Optometry) and Veterinary Medicine, a maximum period of 11 years is allowed.

28. Classification of Degrees

Four classes of Degree shall be awarded based on the Cumulative Grade Point Average as follows:

CLASS OF DEGREE	RANGE OF CGPA

First Class Honours	4.50 - 5.00
Second Class Honours	3.50 - 4.49

However, upon a written application, a student who has been absent from an examination with reasonable excuse (supported by a certificate issued by the Director of Health Services - if it is on the grounds of ill-health **or any proven cases of emergency**) may obtain permission of the Faculty Board to write a make-up examination.

(b) Any student who obtains permission of the Faculty Board to write a make-up examination must take the examination before the end of third week of the following Semester, thereafter change of grade from incomplete result would be made to reflect his new grade.

A grade of Incomplete (I) shall revert to a Failure (F) by the end of the third week of the following Semester if the student has not applied for or has failed to obtain the permission of the Faculty Board for a make-up examination.

30. Regulations Governing Students' Continuous Absence from the University

(a) A student, who absents **himself** from the University for upwards of six weeks in a semester without written official permission, shall normally be deemed to have withdrawn from the University.

(b) A student's actual attendance at lectures, tutorials, practical etc. is to be recorded. Any student who fails to attend up to 75% of any of the above shall not normally be allowed to sit for the examination in that course.

Absence from an examination shall normally result in failure of the Course. However, upon a written application, a student who has been

absent from an examination with reasonable excuse (supported by a certificate issued by the Director of Health Services, if it is on the grounds of ill-health **or proven cases of emergency/accident**) may obtain permission of the Faculty Board to write a make-up in the subsequent examination.

(F) Postgraduate Diploma in Education Management**(i) Introduction****Preamble**

The postgraduate Diploma Programme in Educational Management (PGDEM) is designed for degree and Higher National Diploma (HND) holders in the school system at local, state and federal levels; and other interested individuals who did not study Educational Management during their first-degree programme.

It is to introduce them to basic courses in the principles and practice of Educational Management.

It has been noted that graduates who were being exposed to Educational Management for the first time at the Masters level, often find it difficult to adjust to the programme within the one-year duration. The proposed postgraduate diploma in Educational Management is therefore expected to cater for the deficiencies of non-graduates in Educational Management who later decided to teach and aspire to school principal-ship.

The programme will also cater for the needs of Administrators of School (Principals and Vice-Principals) and personnel in the Ministries of Education who require a general exposure to Educational Management without embarking on the present highly academic Masters Programme. For this group of clients, a general introductory course in Educational Management will serve their needs rather than a thesis-oriented Masters Programme.

Postgraduate Diploma in Educational Management PGDEM Programme differs from the Postgraduate Diploma in Education (PGDE) in the sense that PGDE is a programme that deals with pedagogical aspects of teaching for non-professional graduate teachers in the school system, while PGDEM is a specialist course which focuses on capacity building in school planning, administration and management. PGDEM is packaged for school

administrators in the school system and generally in the educational system, and those who have studied education but not educational management.

Both PGDE and PGDEM could run concurrently because they have different clienteles. The two programmes have different orientation.

Rationale:

PGDEM is purely a professional course.

The proposed programme, therefore is:

- (a) to introduce candidates to basic courses in the principles and practice of Educational Management;
- (b) expected to cater for the deficiencies in Educational management task performance noticeable in some graduates who specialized in the teaching subject areas but did not study educational management;
- (c) to cater for the needs of Educational Administrators (Principals, Vice-Principals, Heads of Departments etc) and personnel in the Ministries of Education (Federal and State) Teaching Service Commission, Primary Educational Boards etc. who require general exposure to fundamentals of Educational Planning and Administration. For those groups of clients, a general introductory course in Educational Management will serve their basic needs.

(ii) Programme Objectives:

It is expected that the programme will assist in capacity building for graduates involved in teaching, planning and administration of education at federal, state and local levels.

(iii) Admission Requirements:

The course is open to (i) graduates of the University of Ilorin and those of any other recognized University approved by Senate; and (ii) Higher National Diploma (HND) holders with Upper Credits.

The programme is expected to cover a period of two years of ten weeks duration per year by sandwich study.

(H) Postgraduate Diploma in Conflict and Peace Studies**(i) Introduction**

The study is chosen in the light of present happenings in and around the world. These happenings (conflicts) have manifested themselves in social economic, political, religious and environmental matters. Indeed, the need to seek for peace in all its ramifications cannot be controverted. Recent research studies have amply shown that in the post war era and especially since the end of the Cold War, most African and third world countries have known no peace. Most of the major crises and low-level wars have been confined to these states.

Evidently, most post-colonial African state have experienced serious conflicts since the attainment of independence. Notable among these were civil wars, borders conflicts, sectarian and ethnic clashes, coups, labour unrest etc. As a result the governments of these countries have expended huge human and material resources in the pursuance of peace and the settlement of conflicts.

The postgraduate diploma degree programme in conflict and peace studies would attempt the examination of the main trajectories of conflict situations and peace building process from both theoretical and practical points of view. It will identify in a comprehensive manner the various sources of conflicts and provide an overview of conflict resolution mechanisms from historical perspective. The programme will identify the latent threats to national integrity and corporate existence in detail and explores remedial measures. It seeks to evolve a system that supports effective decision-making and enhance the feelings of nationhood.

The programme is strictly targeted towards laying specific emphasis on the significance of peace and the resolution of crisis in African in general and Nigeria in particular. This is very important because there can hardly be any meaningful development in the State devoid of peace. The programme is designed as an in-service training to impart the necessary theoretical and

practical knowledge to officers in the civil service, Local Government, Private organizations, Government Agencies, Military and Para-military establishments, the Police, National Orientation Agency, Labour Unions, Technical Aids Corps, as well as members of the Diplomatic corps and all organizations involved in matters dealing with the pursuit of peace and crisis management.
